Nincteen persons were taken off the steamships Seguranca and El Derado on their arrival in New-York Bay from Colon and Galveston, respectively, yesterday. Four of these, showing signs of possible vellow fever infection, were sent to Swinburne Island Hospital. The other fifteen were sent to Hoffman Island for observation.

Dr. Alvah H. Doty said that there is absolutely no cause for alarm in this city.

In New-Orleans the situation yesterday became more alarming. New cases were reported from many parts of the city which have hitherto been free from infection. The Italians, to whom the fever epidemic is almost entirely confined, alarmed at the number of deaths, steal away in the night to other quarters of the in between Vladivostok and the Russian Mancity or suburbs, and in this way, the health officials say, the infection is spread.

Rigid Examination.

Following his policy of rigid precautionary measures against possible yellow fever infection, outlined in The Tribune several days ago, Dr Alvah H. Doty permitted no vessel to pass Quarentine yesterday without a thorough inspection. As a result of this precautionary measure, seventeen persons with abnormally high temperatures were removed from the Panama Line steamship Seguranca, from Colon. Of these ten were members of the crew, four of whom showed signs of infection. They were taken to Swinburne Island for observation. The remaining seven were first and second

Mr. Sato has acted in the capacity of spokesman for Baron Komura's party since his arrival last Tuesday. He has received the reporters twice a day and his statements have been always tactful and diplomatic. To inquiries regarding the peace terms Mr. Satq said on Tuesday that he did not know them; and to be quoted in the Russian capital as talking on a subject which the Japanese have regarded as almost sacred hurt his pride. Mr. Sato seemed to believe that the dispatches cabled to St. Petersburg were deliberate misrepresentations and not mistakes, and he denied officially having discussed the peace terms.

In connection with this it is interesting to note that probably not more than a dozen persons know exactly what the Japanese demands will be. They are the Mikado and the members of his Cabinet, Baron Komura and Minister Takahira, peace envoys, Baron Kaneko and ssibly President Roosevelt.

Q.—What was the first you heard of the relations of Dr. Harris and Strosnider? A.—It was in the course of the organization of a bank about March in this year. Dr. Harris has an office in No. 40 Wall-st. He came to my office and said he had a subscriber to 750 shares of the bank stock, which I knew Dr. Harris to be organizing. He showed me the certificate, which was signed by John H. Strosnider. Dr. Harris had with him \$10,000 in bills, which he showed me and asked my advice about a loan for that amount. He explained to me that he was on the point of lending to Strosnider the \$10,000, but when I asked him who John H. Strosnider was Dr. Harris replied that he was a millionaire whom he had met in Paris. He said he had been introduced to Strosnider by Fournier, the automobile manufacturer, and a prominent French had told him that the remittances from the estate of his father, from whom he had inherited the money, had been rather slow, and he needed a temporary loan of \$10,000. I told Dr. Harris that he had better consult a financier: I was a hwyer, and could not advise him as to the loan. He left my office about 2 o'clock, and I did not see him notll the next day. He came to my office the next day and showed me a note, signed by John H. Strosnider, for \$10,000, and he told me this story. Dr. Harris and his wife and Strosnider and his wife, at Strosnider's he witation, went to Rector's or dinner. From there they drove to Martin's lifter having some wine at Martin's Strosnider and all according to Dr. Harris: "I think I'd like to to to my club and try my luck. Come along the sen, and leave the head of the come along. After having some wine at Martin's Strosnider said, according to Dr. Harris: "I think I'd like to go to my club and try my luck. Come along oid man, and leave the ladies here." Thinking it was a private club, Harris accommanded him. They went to a pince near the Waldorf. Harris continued. "As soen as I was in the house, having passed a policeman who warned us that it was a gambling joint. The doors were closed, locked and barred. Strosnider took me to a table, and in fear of my life I sat at the table and played a game. The nagure of it I did not know until it was explained in court to-day." I told Dr. Harris he had been bureced. Dr. Harris told me that because he was in fear of his life he sat at a table and played the game according to Strosnider's instructions. He sold that Strosnider hought the chins, and he paid for them, Strosnider hought the chins, and he paid for them, Strosnider now and then fossing him chips and telling him how to play. Dr. Harris told me he lest 20,000 that evening. I told him he had been bureced, but I advised him to keep it touch with those who had swindled him, because I knew that such men always come back after big fish. He told me some days later that he had seen Strosnider again, and had visited another gambling place, this time year the Hotel Astor, and had last \$2,000 for which Strosnider had given him a note. Now, these notes were demand notes, and IP. Harris asked my notes were demand notes. He told me that he had consulted with one or two bankers, who assured him that ten day notes were far superior to demand notes. I told him to go ahead and get them if he could.

At this point Mr. Andrews showed four notes, two demand notes for \$2,500 and \$10,000, and two ten day notes for similar amounts. He

By this time Dr. Harris realized thoroughly that he had been skinned by these men. We then employed private detectives, who learned that Strosnider was an ex-convict, having been sent to the Trenton Prison for five years and pardoned after two years by President McKinley, at the earnest personal solicitation of Mrs. Strosnider I then said to Dr. Harris, "Let's lay a tray for them, and get them with the money on them." I arranged a telephone system so that four persons could hear in my office what was going on. I also had Dr. Harris present the notes at the Colonial Bank, to save hunself. They were so presented in the mean time Mr. Strosnider was repeatedly asking Dr. Harris to make a visit with him to Philadelphia or Atlantic City. I wanted the meeting in New-York, but I could not get into communication with Strosnider. Finally Dr. Harris told me that he had beard that McKee could be found at the Belmont Park Bacetrack. Dr. Harris and I went down there and Dr. Harris met McKee there, and at my suggestion gave him money to bet on the horses. McKee refused the money said he wasn't dealing fare, but he volunteered to give the doctor a couple of "good things," and, strange to say.
